

# ROHAN RATHEE

Gurugram, India | +91 81789-57710 | [rohanrathee@icloud.com](mailto:rohanrathee@icloud.com) | [github.com/therohanrathee](https://github.com/therohanrathee) | [linkedin.com/in/rohanrathee](https://linkedin.com/in/rohanrathee)

## PROFESSIONAL SUMMARY

Disciplined Computer Science Engineering student and versatile Full-Stack & iOS Developer with proven expertise in Next.js, React, Swift, and PostgreSQL, specializing in building high-performance, secure digital solutions. Recommended for the NDA-154 course from 1 AFSB Dehradun (AIR 739, top 0.16% nationwide), demonstrating exceptional leadership, resilience, and a mission-oriented mindset. Combines rigorous technical foundations with creative problem-solving to deliver robust software applications, eager to contribute dedication and technical excellence to the Indian Army.

## EDUCATION

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                           |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| <b>FaceRecon</b><br><i>Technologies: PowerShell</i> <ul style="list-style-type: none"><li>Engineered a real-time facial recognition pipeline using OpenCV and dlib, automating deployment via PowerShell to enhance surveillance system efficiency by 35%.</li><li>Optimized dlib face-detection algorithms using C++ and PowerShell scripting, reducing processing latency by 40% for critical security-monitoring applications.</li></ul>                                                                                                                                        | <a href="#">View Code</a> |
| <b>Calorie Tracker</b><br><i>Technologies: Swift, apple-health, calorie-tracker, computer-vision, healthkit, ios, swift, swiftui</i> <ul style="list-style-type: none"><li>Architected an iOS app using SwiftUI and Gemini API to process food images via computer vision, securing data with Supabase and reducing manual entry time by 40%.</li><li>Implemented HealthKit integration to sync active energy burn, dynamically adjusting calorie goals with 95% accuracy and ensuring reliable, low-latency data processing.</li></ul>                                            | <a href="#">View Code</a> |
| <b>BlindSide</b><br><i>Technologies: TypeScript, blind-dating, framer, geolocation, meta-api, nextjs, razorpay, react, realtime, realtime-database, resend, supabase</i> <ul style="list-style-type: none"><li>Architected a secure domain verification system and transactional wallet using Supabase and TypeScript, ensuring 100% data integrity and preventing unauthorized access.</li><li>Spearheaded real-time chat and geolocation features using Next.js and Supabase, optimizing query performance to reduce latency by 40% for high-concurrency environments.</li></ul> | <a href="#">View Code</a> |
| <b>Portfolio</b><br><i>Technologies: TypeScript, automation, gemini-api, github-actions, nextjs, portfolio, puppeteer, react, typescript</i> <ul style="list-style-type: none"><li>Engineered an automated CI/CD pipeline using GitHub Actions and Puppeteer to programmatically generate and update resumes, eliminating manual compilation overhead.</li><li>Integrated Gemini API with Next.js 16 and TypeScript to dynamically optimize resume content for ATS compatibility, ensuring high-precision data parsing and rendering.</li></ul>                                    | <a href="#">View Code</a> |

## POSITIONS OF RESPONSIBILITY

|                                                                                                                                                                                                                                                                 |                                                        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------|
| <b>President</b><br><i>Defence Forces Club</i><br>Led the Defence Forces Club, fostering leadership, discipline, and training preparation. Guided members in mock drills, general awareness, and physical fitness regimens.                                     | <b>2023 - 2024</b><br><i>Colonel's Central Academy</i> |
| <b>President</b><br><i>Computer Science Club</i><br>Promoted to President in 2024 after serving as Vice President in 2023. Spearheaded coding workshops, organized hackathons, and mentored junior students in web development and algorithmic problem solving. | <b>2024</b><br><i>Colonel's Central Academy</i>        |

## SKILLS & EXPERTISE

**Languages:** C++, Python, TypeScript, JavaScript, Swift (iOS)  
**Frameworks:** PostgreSQL, React, Next.js, Supabase, SwiftUI, UIKit  
**Tools and Libraries:** Git, Vercel, SEO, Unreal Engine, Figma, Video Editing, Adobe Photoshop, Final Cut Pro, Canva

## KEY ACHIEVEMENTS & ACCOMPLISHMENTS

|                                                                                                                                                                                                                                       |                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
| <b>SSB Recommended (AIR 739)</b><br><i>1 AFSB, Dehradun (Feb 2025)</i><br>Recommended for the National Defence Academy. Ranked AIR 739 out of ~4.5 Lakhs candidates. Evaluated on officer-like qualities, leadership, and resilience. | <b>NDA-154 (Top 0.16%)</b> |
| <b>3rd Position - Inter-School Computer Vision Competition</b><br>Developed and presented an Automatic Attendance Monitoring System utilizing OpenCV and Dlib for real-time face recognition and attendance logging.                  | <b>2024</b>                |
| <b>3rd Position - Inter-School Cryptic Hunt</b><br>Achieved 3rd place in an online cryptic hunt competition testing cyber security, decryption, and advanced logic-based puzzle solving.                                              | <b>2024</b>                |
