PROFESSIONAL SUMMARY

I am a Computer Science Engineering Student, Full Stack & iOS Developer, and Graphic Designer. By merging engineering logic with creative vision, I build user-first digital products (like AirDentalLab and CityBus) that excel in both functionality and aesthetic detail. Driven by leadership and resilience, I have spearheaded events like Tech Titan 1.0 (founding a school event chain) and coordinated esports LANs for Tech Fusion 3.0. Additionally, I achieved recommendation for the NDA-154 course from 1 AFSB, Dehradun, ranking AIR 739 (top 0.16% nationwide). I combine my technical foundations in Next.js, React, and Swift with creative skills like video editing and design to build innovative, visual solutions.
